EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Wesley Whitmyer, Jr. on August 10, 2007.

The application has been amended as follows:

IN THE SPECIFICATION

Replace first paragraph [0001] with the following:

--[0001] This application is a divisional of copending U.S. patent application No. 10/034,271, filed on December 28, 2001, now U.S. Pat. No. 6,960,161, and is a divisional of copending U.S. patent application No. 10/249,278.—

IN THE CLAIMS

Cancel claim 46.

2. The following is an examiner's statement of reasons for allowance: Due to Applicant's claim amendments (May 30, 2007) and convincing arguments (filed May 30, 2007, pages 7-9), independent claims 41 and 53 are deemed allowable over the prior art of record. Particularly,

Art Unit: 3739

claims 41 and 53 have been amended to further recite a command signal, wherein image data, the command signals and camera information are multiplexed on a pair of wires. Applicant's submits that modifying the D'Alfonso et al. device to merely multiplex any of the signals would require significant other modification that would contradict certain teachings in D'Alfonso et al. in order to provide a properly functioning device. For instance, certain dissimilar signals would require conversion (e.g., analog to digital). In addition, regarding signal transmission, the device would have to give up the time-division line sharing feature (col.4, lines 1-11) for certain signals such feature appearing to be important in D'Alfonso et al. The Examiner takes the position that the required modification of D'Alfonso et al. to multiplex the image data, the command signal and the camera information is beyond the scope of merely inserting a multiplexer, and thus would not be obvious in view of the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
